Subject: Re: Bremerton Gas Works Superfund Site Update

Thank you for the update Bill. You have done a great job keeping us in "the loop". We will stay tuned for further updates.

(b) (6) !!! Enjoy!

Looking forward to continuing coordination on this site with Eva and/or Debra.

Cindy

Greetings Everyone-

It's been quite some time since I've updated you on activities related to our investigation of the Bremerton Gas Works Superfund site. Since my last update, our efforts to develop a work plan to

define our investigation of the site encountered a few delays. With those delays behind us now, we are working to finalize the work plan. It will describe the approach that will be used to guide sampling activities and develop possible cleanup strategies. The work plan will reflect input some of you provided to EPA based on your review of the draft work plan. We anticipate that this plan will be finalized sometime in early 2017, with field activities starting soon thereafter. Once completed, we will make the plan available to you.

On a more personal note, I want to let you know that (b) (6) that my project manager responsibilities are being placed in the capable hands of Eva DeMaria, who is located in our Seattle office. Eva can be reached by email at demaria.eva@epa.gov and by phone at 206-553-1970. Her mailing address is the same as mine, which is presented below. Please direct your future communications about the site to Eva, or Debra Sherbina, our Community Involvement Coordinator for the site.

It's been a pleasure working with you all.

Bill Ryan
